# CONTENTS OF VOLUME 208

## No. 1. *May* 1970

PAGE

The diuretic actions of prostaglandin $E_1$ and of noradrenaline and the occurrence of a prostaglandin $E_1$-like substance in the renal lymph of cats. By S. Fujimoto and Mary F. Lockett . . 1

The influence of heart rate on the section of a substance closely resembling the 18-monoacetate of D-aldosterone by the hearts of cats under chloralose anaesthesia. By Mary F. Lockett and R. W. Retallack . . . . . 21

Enzymic and physiological studies on normal and disused developing fast and slow cat muscles. By William S. Mann and B. Salafsky . . . . . 33

The increase in the rate of heat production of frog's skeletal muscle caused by hypertonic solutions. By K. Yamada . . 49

Cardiovascular function in young lambs during summit metabolism. By G. Alexander and D. Williams . . . . . 65

Summit metabolism and cardiovascular function in young lambs during hyperoxia and hypoxia. By G. Alexander and D. Williams 85

The relation between carotid body chemoreceptor discharge, carotid sinus pressure and carotid body venous flow. By T. J. Biscoe, G. W. Bradley and M. J. Purves . . . . . 99

The frequency of nerve impulses in single carotid body chemoreceptor afferent fibres recorded *in vivo* with intact circulation. By T. J. Biscoe, M. J. Purves and S. R. Sampson . . . 121

Electron microscopic and electrophysiological studies on the carotid body following intracranial section of the glossopharyngeal nerve. By T. J. Biscoe, A. Lall and S. R. Sampson . . . 133

The ontogenesis of haematoencephalic cation transport processes in the rhesus monkey. By L. Z. Bito and R. E. Myers . . 153

The production of adenosine triphosphate in perfused giant axons of *Loligo*. By K. Martin and T. I. Shaw . . . . 171

Ouabain-sensitive carrier-mediated transport of glucose from the cerebral ventricles to surrounding tissues in the cat. By H. E. Brøndsted . . . . . 187

PAGE

The effect of adenosine triphosphate on the transmural potential in rat small intestine. By P. G. Kohn, H. Newey and D. H. Smyth 203

The luteinizing hormone releasing activity of extracts of blood from the hypophysial portal vessels of rats. By George Fink and G. W. Harris . . . . . 221

Luteinizing hormone releasing factor in rat hypophysial portal blood collected during electrical stimulation of the hypothalamus. By G. W. Harris and K. B. Ruf . . . . . 243

The effects of salicylate on temperature regulation in the rabbit. By W. I. Cranston, R. H. Luff, M. D. Rawlins and C. Rosendorff . . . . . 251

No. 2. *June* 1970

The response of some sympathetic neurones to volleys in various afferent nerves. By J. H. Coote and J. F. Perez-Gonzalez . . 261

Conduction velocity in myelinated nerve fibres of *Xenopus laevis*. By N. A. Hutchinson, Z. J. Koles and R. S. Smith . . . 279

The origin of human placental oxytocinase. By V. S. Mathur and J. M. Walker. . . . . 291

The half-life of exogenous gastrin in the circulation. By E. L. Blair, Yvonne Farra, Diana D. Richardson and P. Steinbok 299

Responses of unshorn and shorn sheep to thermal stress. By G. D. Phillips and G. V. Raghavan . . . . . 317

Role of naso-buccal passages in thermoregulation in sheep. By G. D. Phillips and G. V. Raghavan . . . . . 329

Reflex onset of polypnoea in sheep. By G. D. Phillips and G. V. Raghavan . . . . . 339

Actions of noradrenaline and acetylcholine on sympathetic ganglion cells. By H. Kobayashi and B. Libet . . . . . 353

Activity patterns in respiratory muscles and in respiratory neurones of the rostral medulla of the cat. By Ingrid Waldron . 373

Membrane properties of a barnacle photoreceptor examined by the voltage clamp technique. By H. Mack Brown, S. Hagiwara, H. Koike and R. M. Meech . . . . . 385

PAGE

Efflux mechanism contributing to the stability of the potassium concentration in cerebrospinal fluid. By M. W. B. Bradbury and Barbora Štulcová . . . . . 415

Some factors influencing stimulation-induced release of potassium from the cat submandibular gland to fluid perfused through the gland. By O. H. Peterson . . . . . 431

Stimulation and desensitization of the hypothalamic heat-sensitive structures by capsaicin in rats. By Aurelia Jancsó-Gábor, J. Szolcsányi and N. Jancsó . . . . . 449

Intracellular hydrolysis of short chain glycerides by rat small intestine *in vitro* and transfer of glycerol. By J. Howard, M. J. Jackson and D. H. Smyth . . . . . 461

The rates of release and binding of thyroxine by bovine serum. By A. P. Hillier . . . . . 473

Changes in the blood volume of the rabbit with age. By R. A. Little . . . . . 485

Changes in pattern-evoked responses in man associated with the vertical and horizontal meridians of the visual field. By A. M. Halliday and W. F. Michael . . . . . 499

No. 3. *July* 1970

The metabolism of [$^3$H]noradrenaline released by electrical stimulation from the isolated nictitating membrane of the cat and from the vas deferens of the rat. By S. Z. Langer . . . . 515

The recovery of resting potential and input resistance in sheep heart injured by knife or laser. By J. Délèze . . . . . 547

Observations on coronary collateral communications and the control of flow in the coronary circulation of the dog. By R. L. Coulson, J. Grayson and M. Irvine . . . . . 563

Rigor contraction and the effect of various phosphate compounds on glycerinated insect flight and vertebrate muscle. By D. C. S. White . . . . . 583

Voltage clamp experiments in striated muscle fibres. By R. H. Adrian, W. K. Chandler and A. L. Hodgkin . . . . . 607

Slow changes in potassium permeability in skeletal muscle. By R. H. Adrian, W. K. Chandler and A. L. Hodgkin . . . . 645

PAGE

Interactions between histamine and bradykinin assessed by continuous recording of increased vascular permeability. By A. Baumgarten, G. J. H. Melrose and W. J. Vagg . . . . 669

Gallamine triethiodide (Flaxedil) and cat retinal ganglion cell responses. By Christina Enroth-Cugell and L. H. Pinto . . 677

Caudate nucleus neurones: correlation of the effects of substantia nigra stimulation with iontophoretic dopamine. By John D. Connor . . . . . 691

Effects of fasting on intestinal transfer of sugars and amino acids *in vitro*. By H. Newey, P. A. Sanford and D. H. Smyth . . 705

The effect of temperature in the range 0–35° C on the resting tension of frog's muscle. By D. K. Hill . . . . . 725

The effect of temperature on the resting tension of frog's muscle in hypertonic solutions. By D. K. Hill . . . . . 741

The afferent innervation of two infrahyoid muscles of the cat. By V. S. V. Fernand . . . . . 757
